## SKILLS

---

- |                              |                                     |
|------------------------------|-------------------------------------|
| • SQL (Oracle SQL Developer) | • SAS (Statistical Analysis System) |
| • Python (Pandas, NumPy)     | • Iguana (HL7, FHIR, JSON)          |

## EDUCATION

---

**HEALTH INFORMATICS TECHNOLOGY (CO-OP) ADVANCED DIPLOMA**  
Centennial College – Toronto, ON

January 2023 - Present  
Expected graduation April 2026

### RELEVANT COURSES:

- Structure of HCIS
- Tools, Algorithms and Methods for HCIS
- Introduction to Database Concepts
- Advanced Database Concepts

## ACADEMIC PROJECTS

---

- Utilized Oracle SQL Developer to construct a comprehensive database of Major League Baseball statistics
- Executed SQL functions, joins and subqueries in various lab exercises to demonstrate data retrieval
- Utilized Pandas library in Python to complete fundamental data manipulation and visualization exercises
- Completed various exercises in SAS to build foundational knowledge of functions and commands

## WORK EXPERIENCE

---

### CLEANER

Hennick Bridgepoint Hospital – Toronto, ON

December 2018 - Present

- Demonstrated attention to detail while performing routine cleaning and sanitizing of patient rooms and public areas
- Maintained strict adherence to cleanliness and infection prevention and control (IPAC) standards
- Fostered a positive work environment through effective communication and exceptional customer service skills
